

The Corvid Crier

EAST LAKE WASHINGTON AUDUBON SOCIETY

ISSUE 04-9 – DECEMBER-JANUARY 2004

Habitat Lost and Found

When: Thursday, January 27 at 7:00 (after the social hour — note early date)

Where: Northlake Unitarian Universalist Church

Kurt Beardslee is Executive Director of **Washington Trout**, a non-profit conservation-ecology organization dedicated to the preservation and recovery of Washington's native fish and the ecosystems they depend on. The organization was founded in 1989, and Kurt was one of its founding members. He first became its Executive Director in 1991. Since that time, Washington Trout has grown from a small organization with almost no money or staff to its current status as a major conservation-ecology organization. Kurt also serves on multiple boards and committees and is often called to testify as an expert on issues relating to wild fish and their habitat.

Kurt's presentation on efforts to protect hundreds of miles of fish-bearing streams in Washington has received rave reviews from other Audubon organizations. In his presentation, Kurt discusses Washington Trout's "Habitat Lost and Found" program, which is based on three fundamental salmon recovery strategies: 1) correcting the misidentification of salmon habitats in order to qualify them for existing regulatory protection, 2) assessing and removing man-made barriers that block wild salmon and trout from critical habitats, and 3) evaluating and responding to reports of environmental-code violations and working with relevant agencies to motivate effective enforcement actions. *Habitat Lost & Found* has succeeded in restoring access to and protecting hundreds of miles of salmon and trout habitat. It has affected positive change in state regulations and management practices. State and federal managers have recognized its high cost-effectiveness for salmon conservation and recovery.

Please join us **Thursday, January 27**, for Kurt's great program. Come at 6:30 for the social hour. The presentation follows immediately after a brief monthly meeting, which begins at 7:00. The social hour, meeting, and presentation are **free and open to the public**. Invite a fisherman, a naturalist, or anyone who is interested in exploring the world of wild trout and salmon.

Directions to ELWAS office / Northlake Unitarian Universalist Church, 308 4th Ave. S. (corner of 4th Ave. S. and State St.). Take I-405 exit 18 (NE 85th, Kirkland). Drive west on Central Way to 3rd St. (stoplight). Turn left (south) on 3rd St. and follow it as it bears left and changes name to State St. Turn left on 4th Ave S.

Christmas Bird Count — Saturday, December 18 at 8 am

Come meet fellow bird counters at Marymoor Park just south of Redmond at the north end of Lake Sammamish. **Meet before 8:00 am** at west parking lot near the windmill. Be sure to wear comfortable shoes/boots, warm clothes and bring lunch. Tallies from our annual CBC will be combined with counts taken throughout the nation to help determine bird distribution and population trends. Birds will also be counted in Central America to keep track of migrants. We welcome anyone who wants to help — from beginner to expert. Our survey will center on the Sammamish valley and plateau, Snoqualmie Valley, Beaver Lake, Pine Lake and Issaquah area. Should you choose to stay at home and count birds in your backyard, be sure to count for at least two hours. Call Marilyn Steiner, 425-827-2478, with your results before 5 pm on Jan 3. Results will be tallied at the dinner (\$5.00) following the count. Call **Len Steiner at 425-827-2478 or email: MariLenSteiner@aol.com** if you would like to participate. Note: there is a \$1 a day fee if you leave your car at Marymoor and carpool with someone.

After the bird count, join ELWAS for a warm, wholesome meal at 6 pm at the Northlake Unitarian Church. Cost is **\$6.50**, which includes dinner (vegetarian and meat), dessert and drinks. You'll also be treated to a performance by the **ELWAS Chamber Orchestra!** You do not have to participate in the Christmas Bird Count to join us for dinner, but please **call or e-mail the office to reserve your spot at the dinner table. 425-576-8805; office@elwas.org**.

Our Mission: *The mission of the East Lake Washington Audubon Society is to protect, preserve and enhance natural ecosystems and our communities for the benefit of birds, other wildlife and people.*

President's Message

By Christy Anderson, ELWAS President

An Experience Not to be Missed!

Wet feet, cold noses, numb fingers, fogged lenses. Sound like anybody's idea of a good time?

Of course it does! When people tell you stories of their most memorable Christmas Bird Count, you never hear about the year the sun came out and everybody got too warm! December in the Northwest is not known for its balmy Saturdays. I have personally been on the lookout for warm, waterproof boots that are as comfortable to walk in as my sneakers. (So far, I've only been able to find two out of three in any one pair!)

So why do we do it? The reasons vary with every person you ask. Generally, they include getting outside, socializing with friends and making new ones, hoping for that rarity, learning from more experienced birders and just concentrating on looking for birds.

But you may hear something else, too. Making a contribution. Making a difference. The 2005 CBC will be the 105th year birders have engaged in this ritual. Over a century's worth of census data on birds. Each year, more counts are held, and it is now an international event.

The count data has been used to track trends in populations and has given scientists more information about whether certain species are declining or shifting in their habitat. Population indicators can spur us to take action before it is too late. Our Birds in the Balance Committee also does counts at local parks and other natural areas, but of course, we don't have 105 years of data on those sites!

Birds are what we're about, but not just watching. As ELWAS's mission statement says, "protect, preserve and enhance . . ." Step one is having good information, of which CBC data is a part.

If you've ever been on a Christmas Bird Count, you know how much fun it is, too. If you haven't, it's high time you experienced it for yourself! ELWAS's CBC will be held December 18th. Look in this issue for all the details. Everyone willing to spend a day in the field, no matter the weather, is welcomed. You do not need to be a crack birder. The more eyes, the better the chances we'll see more birds.

I look forward to seeing you in the field and at the dinner afterwards. Having fun while making a difference. What more could you ask?!

JBP Jottings

By MaryFrances Mathis— photo by Margaret St. Clair

The birds just keep rolling (oops . . . flying) in to Juanita Bay Park. This fall is a bonanza of new and seldom seen species, with waterfowl holding a slight edge.

- A **Red-throated Loon** was spotted far out in the Bay.
- A family of **Tundra Swans**, 2 adults and 5 juveniles, dropped in for a few hours on their way south.
- A **Greater White-fronted Goose** spent a week in the Bay, hanging out with the *Canada Geese*.
- An **American Black Duck** (see photo) was ID'd at Juanita Beach Park. This duck has likely been around for a while, and seems completely at home feeding on the lawn in company with various Mallards and Mallard wannabes.
- 2 beautiful **Barrow's Goldeneye** drakes joined the large rafts of Coots and Wigeons for a day.
- The juvenile **Peregrine Falcon** continues its daily visits, often perching for hours at a time with an obviously full crop. With plentiful food, maybe it will stay around this winter.
- An **American Kestrel** was seen hunting for a meal.
- **Mountain Chickadees**, which have made an unprecedented incursion into the lowlands this fall, finally arrived at the Park. Best place to find them? In the conifers around the parking lot.
- A couple of **White-throated Sparrows** are still around, so sort through those flocks of LBJ's. You just may find another new skulker.

The species list has now inflated to 162. Where will it be at the end of 2004? What's going to be the next new species?

As always, please report any interesting or unusual sightings to juanitabay@elwas.org.

AUDUBON CENTER/OFFICE HOURS

The office is downstairs at Northlake Unitarian Universalist Church in Kirkland, **308 4th Avenue S. (Corner 4th Ave. S. and State**, directions on page 5).

Phone number: (425) 576-8805

Email: office@elwas.org

**Hours: Monday, Tuesday and Friday
10:00 — 2:00**

COMING EVENTS

Parents and children over 8 are welcome on all trips

Check our website at <http://www.elwas.org/events/> for the latest information and reports of last months' field trips.

Dec 1 (Weds) 6:00 pm — Web Committee

Meets first Wednesday of each month in the ELWAS

Office. All interested parties are invited. Questions? Email Nancy Nicklas at webmaster@elwas.org

Dec 3 (Fri) 9am to noon — Marymoor Park

Join us for a morning walk along the nature trail, seeing what birds are in the area. Meets the **1st Friday of each month at 9:00.** Bring binoculars and meet at the SW corner of the Dog Area parking lot. No registration is required. To reach Marymoor Park, take SR 520 east from Seattle to the West Lake Sammamish Parkway exit and follow the signs. The entrance to the park is one block south of the exit. Turn right at the third stop sign, to the Dog Area parking lot. Parking is **\$1.00.**

Dec 4 (Sat) 8:30 am to about noon

Burke Museum

Get a guided tour of the ornithology collections at the Burke Museum. Here is your chance to ask questions about Washington birds, ornithology in general, or what is done in the research community of the museum. After the tour we can have lunch at the museum cafeteria, stay to see exhibits, or go birding in the nearby park – all depending on people's interest and the weather. Meet before 8:30 am just south of the bus stop at the South Kirkland P&R (on 108th Ave. NE just north of hwy 520 and Northup Way). Limited to 15 people. Please call before Nov 30 if you plan to attend. Passenger cost/person **\$2.00.**

Hugh Jennings 425-746-6351

Dec 7 (Tues) 7:00 pm - Conservation Committee

Meets first Tues of each month in the ELWAS Office. All interested parties are invited.

Tim McGruder at 425-828-4036

Dec 8 (Weds) 9:00 am

Bellevue Botanical Gardens

Join us for a walk through the garden and spend a relaxed morning seeing what birds are in the area. **Meets 2nd Weds of each month at 9:00 am,** and will finish by lunchtime. Bring binoculars and meet at the front door.

Dec 9 (Thurs) 9:00 am

Des Moines Marina/Saltwater State Park/Redondo

Ducks and other waterfowl, seabirds, and gulls will be the focus of this trip as we scope the water at the marina as well as at the state park. We'll look for songbirds, too. Washington State Park decal or \$5.00 parking fee required. Return early afternoon. Meet before 9:00 am at Newport Hills Park N Ride, I-405, Exit 9. Passenger cost/person **\$3.00.**

Joyce Meyer 425-881-5422

Dec 11 (Sat) 8:00 am to noon

Green Lake

Walk Green Lake with expert birder, Martin Muller, who has acquired intimate knowledge of this lake and the over 150 bird species found there. **Meet by 7:25 am** at South Kirkland

P&R near the bus stop (on 108th Ave. NE just north of hwy 520 and Northup Way) to carpool, or meet at Green Lake. We will park at the west end of Green Lake near the Bathhouse Theater and meet Martin on the lake side of the theatre, between the brick building and the water. No sign-up, just show up. Group size is a maximum of 15. Passenger cost/person **\$2.00.**

Hugh Jennings 425-746-6351

Dec 11 (Sat) 10:00 am — Bellefields Trail Walkthrough

Help clean litter along Bellefields Trail in Mercer Slough Nature Park. Meet at the Bellefields Trail parking lot on 118th Ave SE (Bellevue), about a mile south of Greenbaum's Furniture (118th and SE 8th). **Bring gloves, a bag for trash, and binoculars.**

Kay Barrett 425-644-2862

Dec 14 (Tues) 7:00-9:00 pm — Education Committee

Meets **2nd Tues of each month** in the ELWAS Office. All interested parties are invited. Questions? For information email: **education@elwas.org** or call **425-576-8805.**

Dec 18 (Sat) 8:00 am

Annual Christmas Bird Count and Dinner

See page 1 for details

Dec 20 (Mon) 7:00 pm — Birds in the Balance

Meets 3rd Mon. each month at Len Steiner's, 13239 NE 100th, Kirkland. You're welcome to join this group, which assesses bird populations in local habitats.

Len Steiner 425-827-2478

Dec 21 (Tues) 9:00 am – noon — Juanita Bay Park

A relaxed walk in the Park, seeing what birds are in the area. Meets the **3rd Tues of each month at 9:00.** Bring binoculars and meet in parking lot. No registration required.

MaryFrances Mathis 425-803-3026

Dec 27 (Mon) 9:00 am to noon

Birding the Hotspots of King County

Monthly field trip on fourth Monday of each month to wherever the birds are. Meet before 9:00 am at north end of the Newport Hills Park-N-Ride (I-405, exit 9) Plan to be back by noon. Passenger cost/person **\$2.00.**

Hugh Jennings 425-746-6351

Jan 8 (Sat) 8:00 am to noon

Tradition & Round Lakes

We will visit two lakes on the Tradition Lake Plateau just east of Issaquah. This walk features heavily forested areas between the lakes, waterfowl and typical forest birds. We will also stop at the abandoned Greyhound Scenicruiser just south of Tradition Lake. Meet before 8:00 am at north end of Newport Hills P&R (I-405, exit 9). Passenger cost/person **\$2.00.**

Hugh Jennings 425-746-6351.

Jan 13 (Thurs) or Jan 15 (Sat) 7:30 am — Skagit/Samish

Flats — Registration Required

Winter birding offers many opportunities for raptors, including Gyrfalcon, rough-legged hawk, and falcons. Tundra and Trumpeter Swan and Snow Goose are found in fields along with shorebirds and Short-eared Owl may be seen. A WDFW decal is required at some of the birding stops. Bring a lunch. Each trip is limited to 3 cars and 10 people. Choose the date that works best and call Joyce Meyer by Jan10th to reserve your day. Meet before 7:30 am at the Kingsgate P&R. Passenger cost/person **\$8.00**.
Joyce Meyer 425-881-5422

Jan 24 (Mon) 9:00 am to noon — Birding the Hotspots of King County

Monthly field trip on fourth Monday of each month to wherever the birds are. Meet before 9:00 am at north end of the Newport Hills Park-N-Ride (I-405, exit 9) and plan to be back by noon. Passenger cost/person **\$2.00**.

Hugh Jennings 425-746-6351

Jan 27 (Thurs) 7:00 pm

Presentation and Membership meeting

“Habitat Lost and Found” See page 1 for details.

Jan 29 (Sat) 8:00 am to noon — West Seattle Shoreline

Explore the shores and waters of West Seattle along Elliot Bay and Puget Sound to Lincoln Park. Numerous viewpoints overlook the water and freighters, ferries and sea birds. Expectations include goldeneyes, scoters, gulls, Harlequin Ducks and shorebirds. Should be done by noon. Meet before 8:00 am at north end of the Wilburton P&R (I-405, exit 12). Passenger cost/person **\$2.00**.

Hugh Jennings 425-746-6351

Feb 5 (Sat) 9:30 am — Nature Cruise - La Conner

A four hour cruise around Fidalgo Island by way of Skagit Bay, Rosario Strait, Padilla Bay and Swinomish Slough. Expect to see Bald Eagles, Great Blue Herons, Grebes, Loons, Mergansers, thousands of ducks, harbor seals, sea lions, otters and more. The Viking Star is a fully enclosed, heated cruising boat with 31 large glass windows for great viewing in any weather. The boat will leave at 10:00 am, so you should be at the Viking Cruises boat dock office in La Conner by 9:30 am to allow time to check in. Viking Cruises is located one block north of Nasty Jack’s Antique Store on First Street. If you want to carpool to La Conner, meet before **8:00 am** at south end of Kingsgate P&R (I-405 exit 20B northbound or 20 southbound at NE 124th St, go west to light at 116th Ave. NE then right (north) past top of hill to P&R entrance on the left). Carpooling cost/person is **\$5.00**. The cost of the cruise will be \$40. This includes a \$5 rebate to be given back to ELWAS. This is a good opportunity to enjoy a boat cruise and support ELWAS. The boat will take about 40-45 people. Bring a lunch. Call Viking Cruises toll-free at 1-888-207-2333 or email: info@vikingcruises.com to make reservations.

Feb10 (Thurs) 9:00 am — Snoqualmie Valley

On this drive through the farmlands of the Snoqualmie Valley we'll look for Bald Eagles and other raptors and scope the ponds for a variety of ducks. Swans are possible, too. Small birds can be anywhere in the hedges and bushes. Bring a lunch. We'll carpool from Marymoor Park. \$1.00 parking fee. I-405 to Hwy 520 East. Exit at W. Lake Sammamish Parkway and turn right at the stop light. Turn east on NE Marymoor Way, into the Park, and turn right at the first stop sign. Meet at south end of the lot. Return mid-afternoon. Passenger cost/person **\$2.00**.

Joyce Meyer 425-881-5422

Get Your Corvid Crier Online

You can help save trees and help ELWAS save printing and mailing costs by choosing to receive the Corvid Crier online instead of in printed form. If you would like to choose this option, email Jan@elwas.org or call the office at 425-576-8805.

How to get to:

- **Kingsgate Park and Ride:**
I-405 exit 20B northbound or 20 southbound, N. E. 124th St. Go west to light at 116th Ave. N. E., then right (north) a few blocks to P&R lot (on the left). Meet in the S.E. corner.
- **ELWAS Office/Northlake Unitarian Universalist Church,**
308 4th Avenue S. (corner 4th Ave. S and State)
I-405 exit 18 (N. E. 85th-Kirkland). Go west on Central Way to the light on 3rd St. Go left on 3rd St. Follow this street (it bears left and changes name to State St.) Then turn left on 4th Ave. S.

**BIRD
of the
MONTH**

Black Turnstone
Arenaria melanocephala

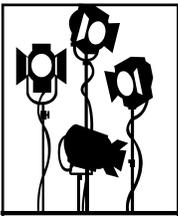

by Hugh Jennings

The Black Turnstone (BLTU) is about 9.25" long with a wingspan of 21" and weight of 4.2 oz. (120g). The genus name *Arenaria* (are-eh-NAY-rih-ah) is from Latin, pertaining to a sandy place (habitat). The species name *melanocephala* (mel-ah-no-SEFF-ah-lah) is from Greek *melas*, black, and *kephale*, head. "Turnstone" denotes the habit of these birds, and ruddy turnstones, who use their short, stout bills to turn over stones, shells, seaweed and other objects in their search for food. BLTU is found on the wave-washed rocky shorelines along the Pacific coast in winter. Against a dark background of dark rocks this bird is hard to see when still, but it's usually on the move, searching for barnacles and limpets. The BLTU is strictly coastal and seen on rocky shores, breakwaters and islets. It nests in Alaska on wet, coastal tundra near estuaries or lagoons. In Washington, it is a common migrant and winter resident. The best sites include Penn Cove, Fort Flagler, Ediz Hook, Neah Bay and the mouth of the Columbia River. It rests on log booms (e.g., Ediz Hook), piers, boats and rafts. It's also a frequent visitor on the West Seattle shoreline. They roost in mixed flocks with other shorebirds, like Surfbirds, Rock Sandpipers, and the less common Ruddy Turnstone.

This is a black shorebird with a white belly. In summer there is a distinctive white spot between the eye and bill, but no white spot in winter. In flight, there is a striking pattern of white stripes on the wing and back, and a clean white underwing. The legs are dusk colored, but can be orange-brown. The bill is black, short and slightly upturned. Adults often return to the same sites and nest with the same mate each year. The male displays with a circular flight over its territory. Alarm calls are given when intruder's approach. The call is a long, low rattle with slight pitch changes *krkrkrkrkr*. There also is a clear, nasal WEEpa WEEpa WEEpa.

The nest, usually built by both parents, is a hollowed-out depression lined with bits of grass, and located in dead grass near water. Typically, there are four eggs, olive-yellow with brown patches. Incubation is by both parents, usually 22-24 days. The downy young leave the nest soon after hatching. Both parents care for the young at first, but the female usually leaves after about two weeks leaving the male to care for them. The young find all their own food. They can make short flights after about 23 days and

Spotlight On Mary Frances Mathis

By Amy McQuade

This dedicated volunteer is from Southern California. She actually grew up at "The Beach," otherwise known as Palos Verdes. After graduating from high school she attended Gonzaga University in Spokane, spending her junior year at Gonzaga's branch in Florence, Italy. Returning for her final year in Spokane, she received a B.A. degree in English, with minors in History and Philosophy.

Returning to California, two years later she married a classmate, and after he received his MBA at UCLA they moved to Bellevue, deciding it would be a better place to raise their two children, a daughter and son, in that order. Her husband worked for Ford Motor Company in Seattle, and a few years later he was transferred to Detroit where in 1979, he died in an auto accident. The children were eleven and seven years old. Mary Frances promptly moved back to Bellevue, bought a house and finished raising the children. After the children left home she sold the big Bellevue home and moved to a condo in Kirkland seven years ago. Her daughter is now married and the mother of Mary Frances' three grandchildren — "two girls, and a boy in the middle." Her love of travel led to her employment in the industry. For six years she arranged tours and actively escorted groups — including a four-month round-the-world cruise. And she still loves to travel.

Mary Frances has always been interested in birds, always had a bird field guide at the ready and looked up every new bird she came across. About four years ago, she "half-heartedly" joined ELWAS, and started watching birds at nearby Juanita Bay Park. One day another birder spoke to her and mentioned she might like to go on one of the chapter field trips. It was Mike West. She took his advice and it changed her life. Amazed at how LISTENING to birds made such a big difference in the watching pleasure, she began seriously studying them, keeping track of what she saw. Suddenly birding was a passion!

Today she is a volunteer Ranger at the Park. She keeps a weekly checklist of species seen in the Park, and it's posted on the kiosk near the parking lot. The list now totals 162. She writes a column for the Kirkland Parks newsletter, and has decided ELWAS has enriched her life so much it was time she gave something back . . . such as helping in the office, leading field trips, writing an occasional Crier, bird article, and accepting an At Large position on the ELWAS Board of Directors, where we highly value her in-put.

ELWAS truly appreciates all the things you do Mary Frances. May your Passion flourish long and HAPPILY.

Winter Classes

➤BASICS OF BIRD PHOTOGRAPHY — WITH TIM BOYER

This class is designed for anyone who is interested in taking better bird photographs. Whether you're a digital photographer, a film photographer or you capture images with a digiscope, the basic elements of bird photography are the same. We will cover composition, perspective, quality of light, getting close to our subjects, vision and style, photographing birds in action, and some of the best places for bird photography. So come prepared to learn more about the "art" of bird photography, rather than how to operate your camera or digiscope.

The first evening session will cover composition, light, getting close and other basic topics. Then we'll meet on either the following Saturday or Sunday and take pictures together. We'll go to a couple of local parks where winter birds hang out and see what we can do. In our second evening session we will critique our photographs, discuss what worked, what didn't work and why. We will also discuss where to locate some of the best spots to photograph birds in Washington and the US.

Tim Boyer, instructor, is an amateur birder and photographer and member of our own ELWAS chapter. He has been photographing the natural world for 30 years and concentrating on bird photos for the last 4 years. His bird photographs have appeared in national magazines such as *Birder's World*. Check out his website at www.timboyer.com for a look at his work.

Classes: Thursdays, February 10 and 17, 2005 from 7:00 to 9:15 pm. Classes held at the ELWAS office, Northlake Unitarian Church in Kirkland. No registration for the class only.

Field Trip: Saturday, February 12 OR Sunday, February 13, 2005. *No registration for the field trip only.*

Cost: ELWAS member \$45, non-member \$60. Fee is for the class and field trip instruction only. You provide your own camera equipment and supplies.

Registration: Call the ELWAS office at 425-576-8805.

➤WHAT BIRDERS SHOULD KNOW ABOUT PLUMAGES AND MOLT — WITH MICHAEL DONAHUE

What is "alternate plumage" and is it different from "breeding plumage?" Why should the "pre-basic molt," be of interest to birders? This class will cover molt and plumage terminology, give a basic overview of plumage sequences, and illustrate how understanding plumage sequence and molt can be an important aid in bird identification; this is information you can use out birding! Mike studied molt at the UW Burke Museum and co-authored a paper in *The Auk* on molt in Western Tanager.

Classes: Tuesdays, March 1 and 8, 2005. Classes held at the ELWAS office, Northlake Unitarian Church in Kirkland. *No field trips.*

Cost: ELWAS member \$35, non-member \$45

Registration: Call the ELWAS office at 425-576-8805. *Registration closes February 25, 2005*

ELWAS HOLIDAY GIFT WRAP

We'll be wrapping gifts (and accepting donations to ELWAS) at REI in Redmond Town Center again this year. Help ELWAS by bringing your gifts to be wrapped.

Volunteers are needed to wrap at all shifts listed below.

Saturday, Dec 18 at 11:00 to 2:00, 2:00 to 5:00 and 5:00 to 8:00.

Sunday Dec 19 at 11:00 to 2:00 , 2:00 to 5:00 and 5:00 to 8:00.

Wed Dec 22 at 11:00 to 2:00 , 2:00 to 5:00 and 5:00 to 8:00.

Thurs Dec 23 at 11:00 to 2:00 , 2:00 to 5:00 and 5:00 to 8:00.

Fri Dec 24th at 9:00 to 12:00 and 12:00 to 3:00.

As you can see shifts are shorter this year so if you would like to work two shifts, please do. We need two people on each shift . Call Nancy Roberts at (425) 822-1865 to reserve your spot. Training will be provided on your shift. It's easy, fun and a great help to ELWAS!
